The Digital Marketing Plan

MARKETING

A Flexible Plan & Process

Perfect for small business owners in Brisbane. The Creative Mode Digital Marketing Plan makes it possible to get consistent marketing done in small 'blocks' that suit your budget and resources. The plan covers whatever is needed such as website updates, social media, ad management and more all tailored to your business goals. My clients love having regular digital support and marketing management taken care of.

Digital Marketing Plan

The Creative Digital Marketing Program

28 years experience in digital marketing informs every decision I make for clients. I've poured that knowledge and experience into a simple program that will help you understand what's required for success online. Use this to follow my process as a client or sign up for the detail via my **Guided DIY** option and gain confidence managing digital marketing for your business. Even if you don't sign up for the detail, I hope the site and other resources will give you some direction.

Digital Marketing Program

1. Discovery

Get fit for business. Uncover your goals. Gain clarity on where you are right now and where you want to be.

2. Strategy

Marketing fundamentals. Deepen your understanding of your goals and market. Know what's needed. Make a plan for the future.

3. Alignment

Align your digital assets to match your goals and market. Create a solid base. Be ready to receive.

4. Attraction

Set up selected channels. Put together your communication plan. Roll it out. Attract. Be visible. Communicate. Engage.

5. Results

Review data. Reflect on results. Gain insight. Adjust and update plan to action knowledge gained.

6. Growth

Listen to the market. Adjust your offer. Refine your delivery. Invest in your growth. Do better.

Websites that Convert

EXPERT

A well-built website gets better results for your business

These days anyone can whip up a website, there are so many options (and now AI is taking it to another level). Regardless, not every website works well for business and not everyone understands the requirements for business success online.

Let me create a professional, custom website for your business that positions you as the only choice for your clients, bringing multiple enquiries every week/day and keeping you and your team as busy as you want (with the kind of work you want).

Website Projects

Digital experience and expertise

Everything your business needs to build success online.

Creative Mode is a digital marketing practice located in Brisbane's outer west. We help owner operators get better results online with websites that convert and digital marketing plans that improve your visibility online and bring (multiple) enquiries every day.

If you would like to attract more clients, look better than your competitors, work with someone who understands your business and get a much better return on your marketing spend, get in touch.

- Content marketing

Your Digital Marketing Partner

ALICIA

MBA Qualified Marketing Manager, Certified Practising Marketer (CPM)

I've been helping business owners get better results for many, many years and what I know for a fact is that effective digital marketing is a nuanced art.

Anyone can figure out how to use WordPress or how to post on social media or run an ad but not everyone does it well. So let me show you the

difference that comes from working with a professional who can leverage your time and spend for better results, focussed on where you actually want to steer your business. (If you're not sure where you're going yet we can figure that out too).

When you're done with DIY

1. Marketing Chat

A quick chat up to 20 mins to learn about your business and see how I can assist.

2. Strategy

A paid strategy session to gather all of the information needed to get started on your marketing.

3. Get Started

Your digital marketing plan or a website project begins and I look after everything.
